

RELEASE THE CHAMPION WITHIN

Inside every angler is a champion waiting to emerge. To set them free, you'll need a precision fishing tool with the power, performance and reliability to stand up to the rigors of tournament competition—and to do it reliably every time, whether you're simply fishing the lake with a buddy on a peaceful weekend or battling a legion of other anglers with their eyes on the same trophy. Either way, there's a NITRO® that will take you there. An unwavering attention to technical detail and a relentless pursuit of quality allows us to deliver championship boats to the finest anglers on the planet—and these same boats can belong to you. Each one is a high performance machine that gives their owner the upper hand. They are powerful syntheses of man and machine that push the boundaries of technical innovation. Because the champion inside you yearns to emerge—whether that's mounting the stage and hoisting a trophy or just being the champion your family deserves.

NITRO
PERFORMANCE FISHING BOATS

YOUR HEADQUARTERS FOR EVERYTHING OUTDOORS

BACKED BY THE INDUSTRY LEADER IN BOATING

Johnny Morris founded Bass Pro Shops® in 1972 to provide anglers a one-stop shop filled with great deals on the gear they needed. In 1978, he brought that legacy to the boating industry with the BASS TRACKER®, the industry's first boat, motor and trailer package. From there, he continued adding quality boat brands, including NITRO® in 1988, bringing an exciting new dimension of high-performance fishing to anglers.

“WE STRIVE DAILY TO BUILD A BETTER HIGH-PERFORMANCE FISHING BOAT AT A BETTER PRICE FOR BOTH TOURNAMENT PROS AND EVERYDAY ANGLERS.”

JOHNNY MORRIS
FOUNDER, BASS PRO SHOPS

Because of that dedication, Bass Pro Shops is recognized as the world's premier outdoor retailer, and WHITE RIVER MARINE GROUP® (WRMG), the parent company to NITRO, is the world's largest boat builder by volume. In addition to NITRO, WRMG crafts an array of fishing and recreational boats in America's Heartland.

Want to see your new NITRO in person? Find them at hundreds of quality dealers around the world, including more than 130 Bass Pro Shops and Cabela's® Boating Centers™ and hundreds of independent dealers across North America.

Many of those dealerships, including all of the Boating Centers, have a service center with factory-trained and -certified technicians, so you're assured to have a full-service center nearby to keep you on the water.

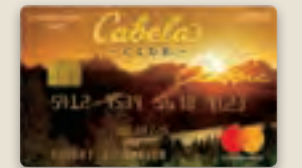

Every location also follows our NO HAGGLE NO HASSLE® pricing policy where every model is priced at after-negotiation levels that are consistent across all media. This also means you'll find the same great prices at our dealerships as you will across our brochures, catalogs, ads and nitro.com. Whenever and wherever you shop, you'll get the industry's best value—all without having to bargain for the right price.

GET PAID TO FISH!

It's everyone's dream, and the Bass Pro Shops® Tournament Rewards® program makes it real. Win or hit the top ten in a NITRO®-approved tournament and get cash!

The Bass Pro Shops® Tournament Rewards program can help you enhance your tournament winnings—whether or not you compete at the

top levels of fishing. Through participation in this industry-leading program, you can receive thousands in cash and Bass Pro Shops and Cabela's® Club Points when you compete and win eligible tournaments from your NITRO boat. Millions of dollars have been awarded to NITRO anglers over the years, and some of that money can be yours.

**FOR MORE INFORMATION AND A COMPLETE LIST OF ELIGIBLE TOURNAMENTS,
GO TO [TOURNAMENT-REWARDS.COM](https://www.tournament-rewards.com)**

Registration must be completed and submitted prior to participation in a qualifying event in order to be eligible for prizes. Program term begins January 1, 2020, and ends December 31, 2020.

SMART DESIGN. TOP QUALITY CONSTRUCTION

From the hand-laid fiberglass hulls, to Mercury® factory rigging, to the smartly organized tackle and rod storage, we've attended to every detail on every NITRO® boat to give you the assurance that nothing will get in the way of fishing.

Our Lean Sigma manufacturing methods add value and reduce waste—both in labor and materials—at every step in the process, meaning more boat for less money.

Structurally, the NITRO lineup is second to none, thanks to the unparalleled skill of our master craftspeople. Inside the hull, you'll find a one-piece, gelcoated fiberglass stringer system that's double bonded to the hull to

create a super-strong, unitized structure. The stringer also forms the interior of the storage/rigging compartments, and the gelcoat finish makes them durable and easy to clean.

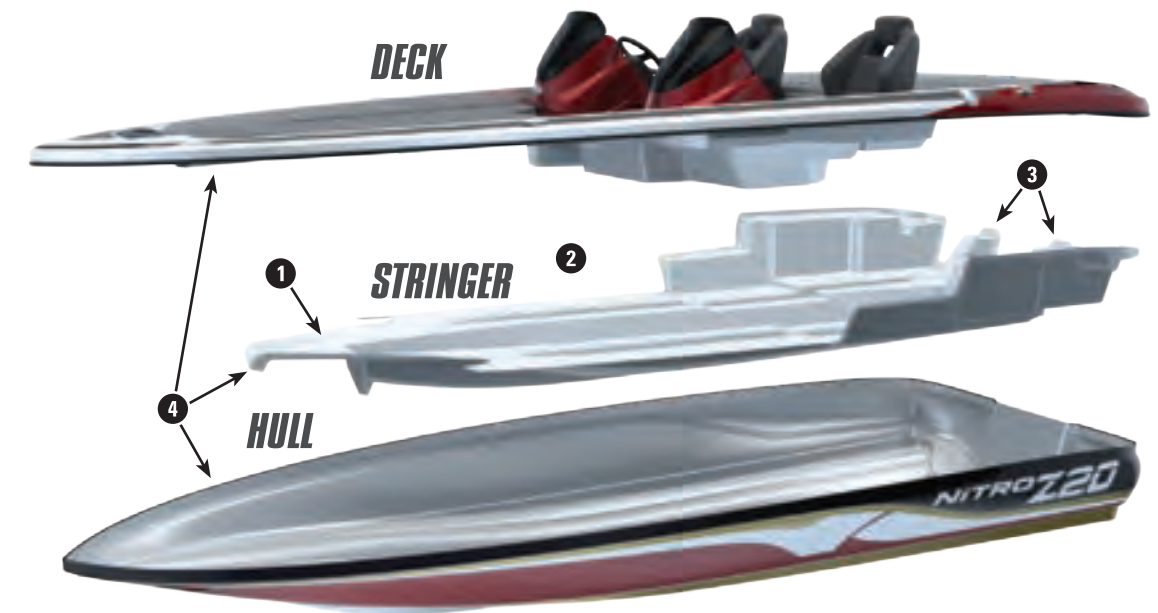

Factory rigging gives you the best setup every time. Mercury-trained technicians rig all our boats at our factory. This means your boat is rigged to exact specifications that focus on quality, consistency and efficiency. We're able to pass along cost savings to you while delivering a boat that requires significantly less dealer preparation. This lowers your dealer's costs while also freeing up technicians to respond to your service and maintenance needs.

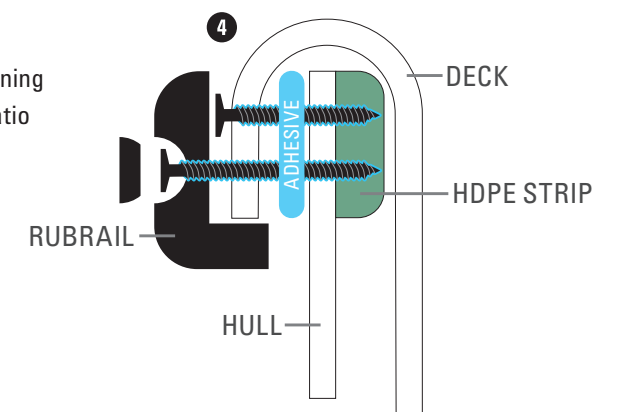

ONE-PIECE STRINGER SYSTEM

EXCLUSIVE TO NITRO Z SERIES BOATS

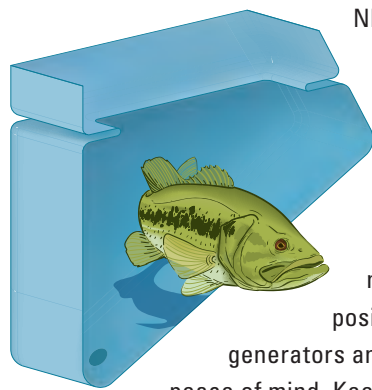

NITRO® boats are built rock-solid from the inside out, and one of the most important components is one you can't even see. Sandwiched between the hull and the deck is a solid fiberglass, closed-molded substructure called a stringer (or liner) that unitizes the boat. Closed molding gives a higher strength-to-weight ratio, and gelcoating makes the interior of the deck compartments easier to clean. Transom knees are part of the stringer—not added on later—to form an unyielding foundation upon which to bond the 100% composite transom. The stringer, transom, deck and hull are chemically bonded and mechanically fastened together to become one solid structure for a lifetime of top performance and tourney-winning fishability.

- 1 Gel-coated top side for easy compartment cleaning
- 2 Closed molded for higher strength-to-weight ratio
- 3 Transom knees an integral part of stringer
- 4 Permanently bonded to hull deck and transom

GUARDIAN LIVEWELLS

NITRO-exclusive GUARDIAN™ livewells are highly valued by our pros as the best in the industry. Distinguishing features include a 360° baffle around the top edge that keeps water from sloshing and banging up fish, rounded corners to promote natural motion, angled bottoms for positive draining, and auto-fills, oxygen generators and powerful, reliable pumps for your peace of mind. Keep your fish healthy and vibrant with

GUARDIAN livewells—standard on all NITRO boats.

Z-CORE SEATING

Working closely with Kevin VanDam, NITRO innovated the Z-CORE™ Seating System—a total redesign of the traditional high-performance bass boat seat.

The seat starts with an all-composite, rotomolded frame. The frame is contoured to cradle the torso and has just enough flex to absorb punishing impacts on the water. A recess at the bottom is laced with Force Flex elastic suspension for even more added comfort, and wrap-around wings hold you in place when running over chop.

The Z21 and Z20 Z PRO packages feature a power-inflatable air cushion that supports the upper back when in the crouched running position.

OUR CUSTOMERS HAVE SPOKEN

For six consecutive years, NITRO fiberglass outboard boats have been recognized for excellence in customer satisfaction by the National Marine Manufacturers Association® (NMMA®).

This means that hundreds of feedback surveys returned by actual purchasers of NITRO fiberglass fishing boats reported average satisfaction ratings above 90 points on a scale of 100. With a NITRO, you get a steadfast dedication to quality that you can see in the fit and finish, feel in the smooth ride, and count on for a lifetime. Thanks to the skill and experience of our master fiberglass craftspeople, care is taken at every step in the process to ensure the finest, longest-lasting boat at the best price.

The CSI award from NMMA is a tribute to our skilled and dedicated boat makers and to the thousands of people in our company and dealer network

who provide support to our customers. By working hard and working smart, they are delivering the promise of quality and value that has placed NITRO solidly among the leaders in performance fishing boats.

RECOGNIZED FOR EXCELLENCE IN CUSTOMER SATISFACTION SIX YEARS IN A ROW

HULL DESIGN REDEFINED

Throughout its history, NITRO® has been known for smooth-riding boats that run dry and stable in rough water—and that fish with the best of them. Advanced design technology is raising the bar, retaining NITRO strength and adding speed, agility and even quicker holeshots. The NITRO VORTEX TECHNOLOGY™ (NVT™) hull is a revolutionary design that uses a series of parabolic curves instead of traditional strakes. The result is a hull with exceptional top-end speed and lift—plus improved acceleration—all while maintaining superior control and handling. The organic shape of the NVT hull also enhances consistency in the manufacturing process and provides exceptional strength-to-weight ratio. Available exclusively on the Z17, Z18, Z19, Z20 and ZV20.

NITRO-EXCLUSIVE RAPID PLANING SYSTEM (RPS) TRANSOM

The Z17, Z18, Z19, Z20, Z21, ZV20 and ZV21 all feature our exclusive RAPID PLANING SYSTEM™ (RPS) transom. The notch in the center of the transom releases trapped air on takeoff, and the set-back design of the transom delivers maximum water flow to the propeller. The result is a faster holeshot, enhanced performance at the top end and increased overall efficiency.

EXPLORE THE INTERIOR OF THE NITRO Z21

MAXIMIZE THE ADRENALINE

Z20

The NITRO® Z20 is a top-seller because its performance compares favorably with the Z21 while being more compact for probing docks and shallower water. The basis of the Z20 is the NITRO VORTEX TECHNOLOGY™ (NVT™) hull—a design that uses a series of parabolic curves for quicker holeshots, more lift while on plane and improved handling. The Z20 is optimized for tournament angling, with massive rod capacity in the two 8' bow rod lockers and an enormous center tackle storage compartment with NITRO-exclusive TACKLE MANAGEMENT SYSTEM™.

"My NITRO made winning the REDCREST Championship look easy—the reliability, performance and storage layout are second to none."

PRECISION & POWER

Z19

At 19' 4" and with 200HP standard, the NITRO® Z19 is fast enough for the most demanding tournament anglers and nimble enough to get into places where bigger, heavier boats can't. This is thanks in part to our exclusive NITRO VORTEX TECHNOLOGY™ (NVT™) hull, which improves holeshot, acceleration and overall performance. The Z-CORE™ seating system with Force Flex suspension provides industry-leading comfort, and it's factory-rigged with a Mercury® outboard, Minn Kota® trolling motor, Lowrance® fishfinder and a custom-matched trailer.

"The NITRO Z19 fits that 200-horse sweet spot just right—it's a very fast, extremely fishable boat that can take you right to the top of the leaderboard."

AMERICA'S FAVORITE FIBERGLASS BASS BOAT

Z18

The NITRO® Z18 is America's best-selling fiberglass bass boat because it balances power and fishability in a ready-to-win package. It's built around our revolutionary NVT™ hull with RAPID PLANING SYSTEM™, giving you a smooth, soft and dry ride along with a brisk holeshot and precision handling. The massive bow deck is laid out with one purpose—catching fish. With a 24-volt Minn Kota® trolling motor standard and our ultra-comfortable Z-CORE™ driver, passenger and fishing seats, it really is a bass boat for everyone.

"The Z18 is the most popular fiberglass bass boat in America because it provides the perfect balance of fishability, performance and ease of ownership."

BUILT FOR BIG WATER

ZV21

Built to give you the tools to compete in Great Lakes conditions, the ZV21 can do just about anything. New for 2020, it features a 5" touchscreen with one-touch command of boat controls—including the innovative First Fish function, which fills and recirculates the livewell with one touch. A handy key fob controls many of the same functions. And for the sprint back to shore, you'll be powered by up to 400 horses leading the charge. So when it comes to the biggest, baddest walleye lakes of the north, choose the ZV21.

"The ZV21 blows the competition out of the water when you consider everything—performance, fishability, safety and value. It's kept me at the top of my walleye game for years."

MULTI-SPECIES SPECIALIST

ALL-NEW FOR 2020

ZV20

The NITRO® ZV20 is a formidable 300-horsepower-class Deep V fishing machine with the brute strength and fishability you need to conquer big water. New for 2020, it features 5" touchscreen command of boat controls—including the innovative new First Fish function, which fills and recirculates the livewell with one touch. A handy key fob controls many of the same functions. Built with crucial input from our walleye pros, the ZV20 is designed to find and catch walleye, but it pulls in some great family features as well.

"The new NITRO ZV20 checks all the boxes for a tournament walleye angler like me—plus adds some special features for the whole family."

ALL-WATER VERSATILITY

ZV19

The NITRO® ZV19 is a hardcore, overbuilt fishing machine with a maximum 225HP capacity, created with input from the world's top walleye anglers. The deep, comfortable interior keeps fearless anglers secure in rough weather and families safe when cruising. The aggressive Deep V hull slices through the chop on big lakes with smooth agility, and its wide beam provides plenty of stability for six anglers to move around the deck with confidence. It sports a list of fishing features that will please the pike, muskie, bass or walleye angler.

The ZV19 is the big-water beast we've been waiting for—it's an ideal boat for diehard northern anglers and families, too!

STANDARD GEAR & OPTIONS FROM OUR TRUSTED PARTNERS

To ensure that your NITRO® provides industry-leading value and maximum fishability, we pack it full of products from the leaders in the fishing industry. Unlike many tournament-level fishing boats, every NITRO comes with the trolling motor, fishfinder, outboard and trailer included in the price—and we

offer a long list of upgrades from the top players in the game to outfit your boat the way you want. The quality and reliability of our partners' products is proven and undeniable, ready to provide you with years of tourney fishing or just battling your buddies on the weekend.

Mercury® Outboards

We offer Mercury FourStroke, Pro XS® and Verado® outboards to help power you to the top of the leaderboard.

Minn Kota® Trolling Motors

Minn Kota makes the toughest, most innovative trolling motors on the market—and we make them standard on all NITRO models.

Lowrance® Fishfinders

Founded in 1957, Lowrance was the first recreational fishfinder manufacturer.

NITRO® Removable Port Console

Available on all Z Series boats. Easily removable by one person without tools.

Lowrance® Ghost Trolling Motors

The Lowrance Ghost Freshwater Trolling Motor helps anglers fish longer, run faster, and move in closer without spooking fish.

Humminbird® Fishfinders

A leader in advanced marine electronics. We offer a range of Humminbird products.

Jack Plates

Add speed, stability and fuel economy with hydraulic or manual jack plates.

Bluetooth®-Capable Stereo

Stream tunes from your phone while you're chasing your next record.

Loc-R-Bar® Gear Protection

Provides an extra level of security for your expensive fishing tackle.

Minn Kota® Talon Anchors

Stay on the fish when you find them with Minn Kota shallow-water anchors.

Hot Foot™ Throttle Control

Free up your throttle hand for easier control and better responsiveness.

NOCO® Genius Chargers

Standard NOCO waterproof battery chargers keep you powered up and ready to fish in the most demanding tournament conditions.

Interstate® Batteries

Interstate batteries provide reliable starting and worry-free trolling for long days on the water—installed standard on all NITRO boats.

Power-Pole® Anchors

Rock-solid and fast-deploying Power-Pole shallow-water anchors keep you locked in place in up to 10' (3.05 m) of water.

Keel Protector

Protect your keel from scratches with a durable keel protector in Black or White.

ADDITIONAL OPTIONS

We offer the same options that pros like Kevin VanDam and Edwin Evers use in their professional tournament careers. From the functional to the aesthetic to the protective, we've got everything you need to join the big leagues.

No detail is omitted in our option availability, so that you can fish the way you want to, whatever level you choose to compete at.

Comprehensive option availability can be found on pages 60–77 and at NITRO.COM

NITRO.COM

THE RELENTLESS PURSUIT OF EXCELLENCE

At NITRO® Boats, our job is to build precision fishing machines that can make your fishing dreams into reality. We do so knowing that your boat is the most important tool in your angling arsenal. And we do so with the same passion you have—a love of the outdoors, of tradition, of family and of that feisty green fish on the end of your line. Because inside anyone that has ever fought and landed one resides a champion—this is why we design every NITRO boat to help you release the champion within.

We're constantly adding content online like fishing tips, outdoor events, amazing photos, special deals and more – and we invite you to share your memories with us on any of the social media channels below.
